

# Plan **Smart.** Build with **Certainty.**

At Align Limited, our team of experienced planners deliver practical, expert advice on district, regional, and statutory requirements, assessing development potential and preparing resource consent applications.

Our expertise covers network utilities, transport, gas, and other infrastructure, as well as local government, multi-lot subdivisions, and residential and commercial projects. We have extensive experience with notices of requirement, outline plans, and alterations to designations.

## Our Planning Services Include:

- Feasibility studies and due diligence
- Assessment of effects
- Resource consent applications
- Resource consent processing
- Route and site selection
- Submissions
- Stakeholder engagement
- Parks and open space planning
- Notices of requirement and outline plan of works
- Geospatial data and design
