

Building a stronger New Zealand, **together.**

The Property Group (TPG) is a locally owned property and RMA planning consultancy, bringing Kiwis together to build Aotearoa New Zealand for over two decades.

TPG advises on delivering the critical roads, rail and bridges that connect us, the spaces and buildings where our vibrant communities live, and the essential public facilities we rely on. Our highly skilled team of 170 right across New Zealand bring unique knowledge in a local context and a trusted, independent point of view.

We provide national perspective and hands on experience across the planning spectrum, including strategic planning advice, policy development, district plans, notices of requirement and resource consents.

TPG is at the forefront of embracing change, driving progress, and helping to shape our communities of tomorrow. We are building a stronger New Zealand, together.
